

Coshocton Amateur Radio Association
Meeting Date: 11/6/2018

Attendance: KC8PUW, KE8KMM, KL7RF, NF8U, KC8YXY, WX8OH

Excellent presentation on SATERN by Warren WX8OH and Check SATERN.org for more info and to listen to nets

Called to Order: 2000 PM Local

Repeater Report:

- KB8HEA looking into a new amp
- After discussing different observations 2 things was brought forth
 - Check all coax connections for oxidation and tightness
 - Nets are directed please ask and go thru net control
- We have 2 broken 2M amps, let's look into having them fixed

Web Page: slow scan Pic from ISS relayed from KE8KMM added and cool. KE8WIP Shack pic added to Shacks Page but was transmitted during weekly diginet, contact KL7RF for adding content to the page, the more the merrier

Field Day: Brown's Farm has been reserved. Please we need people to turn out and operate and Picnic at 5PM Saturday... maybe operate radio in order to be allowed to eat... no just come eat and fellowship at the least

Ares Report:

- KL7RF presented award to KC8PUW for Black Swan 18 coordinator, KC8PUW, me in person now, wishes to thank all for participating in Black Swan 18 without the volunteers there would be nothing to coordinate and all did a very good job and I hope you all had radio fun. I also wish also to thank AA8BN for preparing the award and KL7RF for the presentation.
- And a special thanks to Wendy KL7IUC for the special Black Swan badges for all the participants

Old Business: NF8U still dragging feet on 440 antenna

New Business:

- by executive order NF8U extended KE8KMM free membership to extend for 2019 as well as the couple months of 2018
- Nominating committee was appointed KC8PUW, KL7RF, and KE8WIP

Close of Meeting: Motion by KL7RF but we had no quorum for a vote so by Executive Decision NF8U adjourned the meeting
